

SWIFT CURRENT MINOR BASEBALL

April 21, 2020

Parents and Players

RE: SCMB COVID-19 Update

Dear Players and Parents

I hope that you and your families are all safe and healthy. Thank you for your efforts to maintain appropriate social distancing and for doing your part to “flatten the curve”.

Swift Current Minor Baseball and Baseball Sask have no immediate plans to cancel the 2020 season but unfortunately at this time, baseball is still suspended indefinitely. The SCMB Board and I are constantly reevaluating our plans for the upcoming season as more information becomes available from our province’s Chief Medical Health Officer.

As it currently stands, all Baseball Sask sanctioned activities, and therefore all Swift Current Minor Baseball events, remain in a suspended state. Play and mass gatherings have been banned to prevent the spread of the COVID-19 virus.

Although our season is still presently suspended, as an association we want to be ready when we are permitted to play ball later this summer. We will continue to accept player registration until May 1st. We have even agreed to wave registration fees until we know when our season begins. Our goal is to try to provide some form of a positive baseball experience this summer for all participants; we want to do this even if it means moving to a season that ends later in the summer.

Thank you very much for your family’s continuing interest in and support of SCMBA and its participants. Stay healthy and stay safe.

Sincerely,

Kyle McIntyre
President Swift Current Minor Baseball Association
